Oxygen and Aerosol Therapy ▪ Paediatric Masks

Intersurgical EcoLite™ paediatric mask range

Welcome to the Comfort Zone

The unique design and materials used to manufacture the Intersurgical EcoLite mask provides improved patient comfort and a reduced environmental impact.

Comfortable for the Patient

Improved patient comfort and safety has been key to the development of the Intersurgical EcoLite mask. The latest manufacturing technology has enabled us to combine two non-PVC and therefore phthalate free materials in the same product. The polypropylene material forming the body of the Intersurgical EcoLite mask is clear, lightweight and rigid enough to maintain the masks shape, whilst the second softer TPE material is utilised in the seal, which is in contact with the patients face.

Comfortable for the Environment

The Intersurgical EcoLite mask is an important part of our Eco range, designed as part of our ongoing focus on sustainable development. Various groups have questioned the use of PVC in medical products and its impact on the environment. The utilisation of alternative materials has resulted in the elimination of PVC from the Intersurgical EcoLite mask body and seal, reducing the environmental impact.

Incurved nose seal

Improving the fit and eliminating the need for a separate nose clip. Designed to minimise the risk of oxygen entering the patient's eyes

Lighter
Mask made with lightweight materials

Greener

The elimination of PVC from the masks has lowered their environmental impact

Soft face seal

For improved patient comfort

The shape and position of the exhalation ports have been designed to minimise the amount of rebreathed carbon dioxide

A choice of "under chin" or "on-chin" positions

Designed to fit on a wide range of patient faces

The material forming the body of the mask is clear, permitting visualisation of the patient's nose and lips. It is also rigid enough to maintain the mask's shape during transportation and use

Available with oxygen tubing featuring a universal connector, which can be attached to a 6mm flow meter spigot or fitted directly onto a 9/16-18 UNF Diameter Index Safety System (D.I.S.S.) flow meter

Paediatric medium concentration oxygen mask

The Intersurgical EcoLite paediatric medium concentration oxygen mask is extremely lightweight, and comfortable.
