

nFlow™ Designed to care

The smallest patients often need the most care. Safety and comfort are vital to help infants with their earliest steps in life.

nFlow infant CPAP

The Intersurgical nFlow breathing system offers a complete care solution for infant CPAP with established 'gas flip' technology, providing a low 'work of breathing' option as an alternative to ventilator CPAP.

nFlow is compatible with flow drivers suitable for infant gas flip technology CPAP, with the slightly higher system pressure associated with this treatment.

Bonnets

Nasal masks

Nasal prongs
